TEAMS ACCOMMODATION

Level of accommodation was very good.

All teams have been accommodated in 2 very good hotels. All meals were acceptable and of very good quality. Same hotel as the 2 previous races by the same organiser.

ORGANISATION

Generally no problems on that topic except the 2 issues below.

Wrong date of the event, on the cover page of the Technical Guide. The blackboard man was not experienced enough for that level of event.

SAFETY

Excellent level of safety

Excellent safety and security service by local motorbikes club in cooperation with local police.

TV PRODUCTION

TV was present in order to produce a recorded summary

TV was present in order to record parts of the race (start, finish, etc) for later summary transmission.

SPECTATORS AND COURSE

Numbers of spectators were acceptable.

The race was related to some national anniversary. A good number of spectators were present along the course, as this was at the residential areas of Kiev, and a lot of people attend the finish of the race. Red Bull organised some side events.
